The Sid Richardson Museum, opened in 1982, features original paintings of the Old West by Frederic Remington, Charles M. Russell and other artists. The works, reflecting both the art and reality of the American West, are from the collection of legendary Texas oilman and philanthropist, Sid W. Richardson (1891-1959).

Located in downtown Fort Worth's historic Sundance Square, the Museum is convenient to major highways and within easy walking distance from local hotels.

The Museum Store offers prints, bronze reproductions and prints on canvas of the works of the artists. A wide selection of books and gifts, including works by local artisans, gives the visitor the opportunity to take a little of the Old West home with him. Write, call or e-mail for our free full-color catalog.

Admission to the Museum is free.
